(updated February 2020)

ALL reimbursements should be processed within 45 days of... Travel return date OR Hosting event date.

Business Purpose
The University will reimburse Guests for reasonable and necessary expenses incurred in connection with approved business travel. A ‘necessary expense’ is one for which there exists a clear business purpose and which is within university expense policy limitations. The business purpose must support or advance the goals, objectives, and mission of the university, and must adequately describe the expense as a necessary, reasonable, and appropriate business expense for the University.

Per Diem
- The per diem policy for all university business travel applies only to travel meals and incidental expenses (not lodging)
- Incidental expenses included in the per diem allowance are things such as hotel mini bar charges and tips to porters, baggage carriers, and hotel staff. Incidental expenses cannot be reimbursed separately as they are included in the per diem allowance rate
- Ground transportation (e.g., taxi, shuttle) to and from airports and railroad stations, and between business meetings while on travel status, is NOT included in the per diem incidentals
- Receipts are NOT required for domestic or foreign per diem expenses

Non-employee (guest / student) travel meal reimbursement and hosted events
- Meal reimbursement for non-employee travel is actual or no greater than per person meal limits of $25 breakfast/$25 lunch/$55 dinner
- While guests are not subject to the per diem policy, units may reimburse per diem instead of actual expenses. Units also have the option to pre-pay per diems for students or guests with the Stored Value Card Program
