Staff Initials	Trainee Initials	
		<u>Anyone needing access to MSE equipment needs to contact MSE tech staff:</u> • For initial training • For subsequent usage (will receive equipment card) • No secondary training of the equipment
		<u>Review of hazards, controls, personal protective equipment:</u> • Bring the MSDS for the material to be studied • Machine generates X-rays, it is important to wear dosimeter rings at all times to monitor any radiation exposure • This machine uses high voltage, do not disassemble or touch inside components
		<u>Review of standard operating procedure:</u> • http://www.mse.engin.umich.edu/internal/procedures/bruker-nanostar-saxs • Report any problem with the equipment to Staff. If you think the equipment has failed and do not attempt to repair it yourself. • Usage time begins when you put your sample in the chamber.
		<u>Available supplies to help in the procedure:</u> • Sample holder: • tape
